

NEWS RELEASE

ELESSENT CLEAN TECHNOLOGIES OFFERS NEW BRAND TO MARKET

September 6, 2024 – Elessent Clean Technologies (Elessent) is pleased to announce the launch of MENG'S® technologies and products to the marketplace. This new brand will be available from Elessent and its authorized partners and targets the rapidly developing countries of Mainland China and Indonesia.

About Elessent Clean Technologies

Elessent Clean Technologies is a global leader in process technologies to drive sustainability and carbon neutrality in the metal, fertilizer, chemical and oil refining industries with an unwavering commitment to customer support. We provide extensive global expertise across our portfolio of offerings. Offering critical process equipment, products, technology and services, we enable an array of industrial markets, including phosphate fertilizer, non-ferrous metals, oil refining, petrochemicals and chemicals, to minimize their environmental impact and optimize productivity. We are dedicated to helping our customers produce high-quality products used in everyday life in the safest, most environmentally-sound way possible, with a vision to make the world a better place by creating clean alternatives to traditional industrial processes.
